IPitomy HD Phones

IPITOMY
SMARTER BUSINESS COMMUNICATIONS

A Phone Designed for Business

IPitomy's line of High Definition Audio phones are designed to meet the needs of a wide variety of business applications. Regardless of which model appeals to you, you can be assured that you will enjoy High Definition Audio performance. High Definition enhances the frequency range improving conversations and assuring that every word is as clear as if you were communicating in the same room.

Fits Your Desk and Your Style

Designed for maximum functionality no matter where you place it on your desk. The LCD screen can be seen clearly in any lighting conditions by adjusting the stand to meet the specific conditions of your environment. The IP290, IP320-V3 and IP620-V3-BG have built in wall mounting for convenience and value. All phones are integrated with IPitomy's on screen Contact Dialer.

Easy Functionality

Each IPitomy model shares the same basic design philosophy. All of the commonly used functions are grouped together in logically laid out fixed keys to make learning and using your phone intuitive. The Big Red Speaker button is a common element in the IP290, IP320 and IP620 which lights up when you are using the speaker phone. The advanced headset mode optimizes headset performance integrating it with the phone. The IP320-V3 and IP620-V3-BG models offer integration with Bluetooth and Wireless headsets.

Advanced Features and Mobility Options!

All of the features you need in a business telephone are included plus enhanced integration with your IPitomy phone system. Moving an extension is simple, just unplug it and move it to another location. Auto provisioning makes adding new phones easy. Remote worker's Phones can be configured to go anywhere. With todays mobile workforce, working from home can be part of any business with an IP Phone extension. No VPN required! IPitomy also integrates with your cell phone so you can get your calls on the go and you can even transfer calls back into the office from your cell phone.
