

IPitomy Cloud Services Offer Superior Value!

IPitomy is not your average VoIP provider. Our dedicated Cloud PBX in the Amazon Cloud is a feature rich communications solution. With most hosted solutions you usually have to give up many of your favorite features. With IPitomy's dedicated Cloud PBX you'll feel like nothing ever changed! In fact, you'll get all of the latest features and applications, and never worry about PBX equipment malfunction or obsolescence again!

You'll never miss a call with 'Follow Me' and your voice-mail can go right to your email so you can receive it anywhere on the go! You don't have to give up your busy lamp fields with IPitomy. See who's on the phone anytime, and transfer calls with ease. Use our Q-Manager software to see who is on the phone from your computer. Monitor queued calls, listen, whisper or record from your desktop.

Be ready for anything. With IPitomy in the Cloud, you are free to take your phone anywhere there is an Internet connection. Don't let travel, weather or family responsibilities be an obstacle to your business continuity. The Cloud Architecture provides an unparalleled level of mobility by leveraging soft phones, mobile phones and even your home phone. Transfer incoming cell calls on your 'Follow Me' back to any extension on the PBX. With IPitomy's mobility features, you are never out of touch with your business.

IPitomy provides 24X7 customer support that is second to none. Regardless of whether you contact your local dealer or an IPitomy NOC specialist, all of your needs will be handled in a timely and professional manner.

Ask About IPitomy's 3 Year Red Carpet Service! Rates as low as \$18 a month!
