

## Lytec® Version 2014—The Simple, Smart and Fast Solution to Achieving a Profitable Practice

*Lytec® 2014 is an intuitive and high-performance practice management solution designed to produce exceptional outcomes for your practice and your patients.*

The Lytec® practice management (PM) system from McKesson offers the stability that thousands of physicians nationwide trust to run their practices. The latest Lytec release, Lytec 2014, is designed to help your practice accurately capture data and manage information to optimize cash flow. With Lytec 2014, you will be able to synchronize financial and administrative processes to help improve operations and profitability.

From scheduling and billing through collections and revenue management, Lytec 2014 has your practice covered.

### Benefits that will help you:

- Improve productivity of the scheduling and billing staff.
- Simplify patient accounting.
- Speed insurance billing and improve reimbursement.
- Improve collections and reduce accounts receivable.
- Track practice performance through multiple reports.
- Reduce administrative burden for physicians so they can focus on patient care.

### Prepare for the New Reality of Healthcare

Beginning in October 2014, healthcare providers must use the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10) to classify and code all diagnosis, symptoms and procedures recorded in conjunction with hospital care in the US. The ICD-10 readiness release of Lytec 2014, will help your practice be prepared once the new system goes into effect.

### ICD-10 Readiness and More

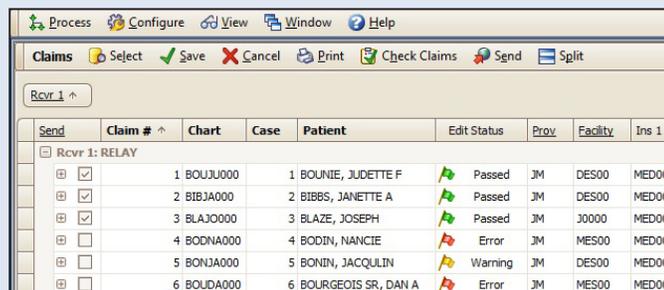

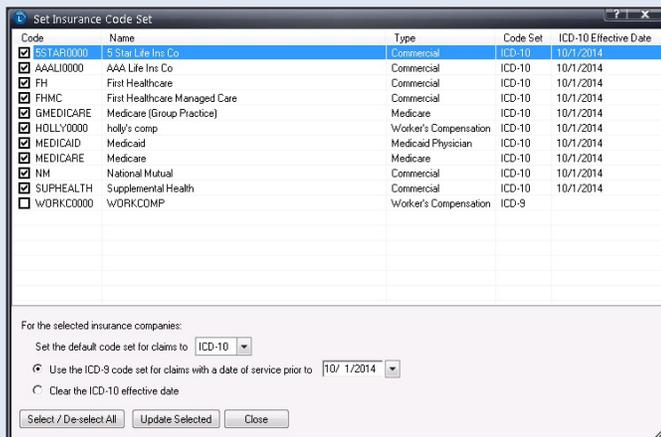

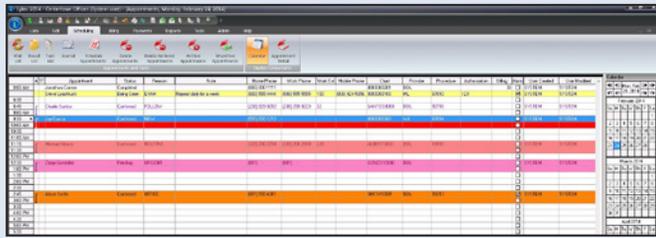

The transition from ICD-9 to ICD-10 will significantly impact your practice's workflow, and Lytec can help you manage the changes. With Lytec 2014, you can take advantage of several features that are designed to help reduce manual entry and minimize the complexity of ICD-9 to ICD-10 mapping. With this release, you will be able to:

- ✓ Enter ICD-10 codes on your diagnosis list.
- ✓ Set the code version by insurance carrier so you can continue to use ICD-9 codes for carriers who will not have transitioned by October 1, 2014.
- ✓ Receive a notification if the wrong code is used for a carrier.
- ✓ Use a mapping tool based on the General Equivalent Mappings (GEM) from the Centers for Medicare & Medicaid Services (CMS) to translate some ICD-9 codes to ICD-10.
- ✓ Help ensure accurate claims processing with use of new CMS 1500 Claim Form (02/12).

# Seamless Practice—See More Patients and Less Paperwork

## Management Workflow

From the time you schedule a patient to the time you get paid for the services you provide, Lytec 2014 helps you efficiently manage your practice workflow.

## Scheduling

Manage your practice's schedule easily with the Lytec multi-view calendar featuring familiar functionality that minimizes clicks. Using the Lytec appointment scheduler, quickly find the best appointment to meet both the patient's and the practice's needs. Lytec 2014 simplifies patient scheduling, optimizes physician time and helps you allocate resources based on actual daily patient volumes.

## Billing

Claims are generated using customizable rules-based grids that allow your practice to easily address different carrier filing requirements. The flexibility of the grid system enables you to enter limitless claim submission scenarios, and it allows your practice to make changes to address future payer changes and government mandates. Lytec 2014 allows you to specify whether the carrier is using ICD-9 or ICD-10, and it provides warning if you enter the wrong code. These capabilities help to both save time and reduce coding errors. It's also easy to set the new code when you add new carriers.

## Revenue Management

Easily track, measure and collect payment for the services you provide in less time than you thought possible. The revenue management feature in Lytec 2014 enables you to check for errors with pre-claim editing before you submit your claims for payment. The revenue management feature also checks for insurance eligibility before a service is performed. With Lytec, the electronic remittance advice (ERA) is translated and displayed in an intuitive window that allows the biller to review the payment information, make changes if necessary, and post each individual payment and adjustment.

## Lytec Mobile

Using the combined offering of Lytec 2014 and Lytec Mobile, a no-fee application for the iPad® and iPhone®, Lytec can help your practice run smarter, optimize reimbursement and help improve productivity. Lytec Mobile provides you anytime and anywhere access to vital information so you can track your practice's performance efficiently and easily. This ICD-10 ready app allows you to use your phone or tablet to view your schedule, transmit charges and capture diagnosis entries from anywhere. Using the combined offerings, Lytec 2014 and Lytec Mobile solutions support simplified patient accounting and can help you track and submit claims to your biller – all at the tap of a button.

### **Your Streamlined EHR Path**

Help accelerate and simplify your electronic health record (EHR) implementation with a seamless upgrade to Lytec MD. This combined EHR and practice management solution is designed to minimize the disruption to your practice when implementing an EHR. Lytec MD can help provide a smooth and steady road to EHR.

### **Enhance Patient Communication with Add-On Services**

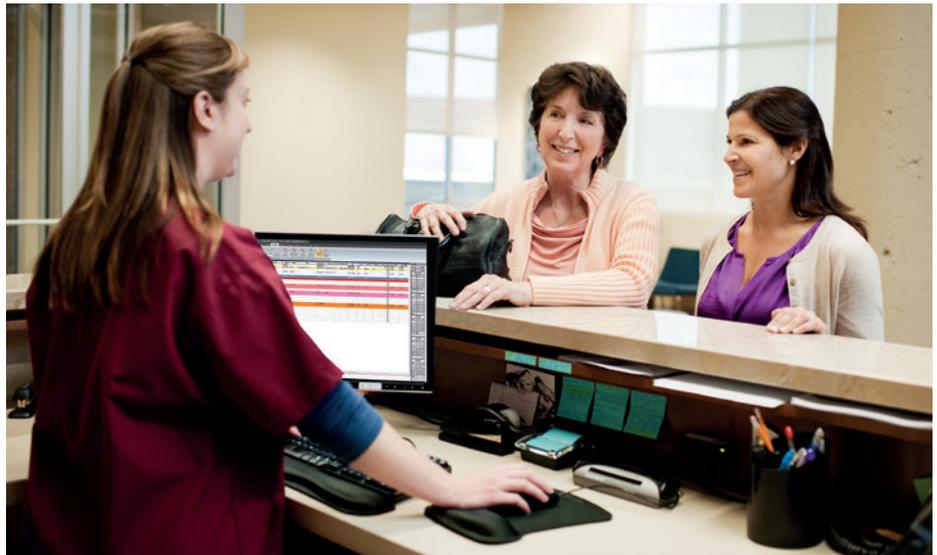

McKesson partners with several third-party providers to extend Lytec's practice management functionality. These optional services deliver tools designed to help improve communication with your patients.

### **BillFlash**

BillFlash from NexTrust helps simplify the billing process by integrating with Lytec to create an easy-to-read invoice that's delivered directly to your patients. To learn more, visit [www.billflash.com](http://www.billflash.com)

### **AutoRemind**

AutoRemind helps automate your patient reminder process, allowing you to communicate with your patients using their preferred communication method – text, email or voicemail. For more information, visit [www.autoremind.us](http://www.autoremind.us).

**To learn more, contact your McKesson Value Added Reseller.**
